

## Cookie Term

### What are Cookies?

A cookie is a small text file which is stored on the browser or hard drive of your computer or mobile device when you visit a webpage.

### What types of Cookies do we use?

- **Necessary**  
Necessary cookies help to make a website usable by enabling basic functions like page navigation and access to secure areas of the website. These cookies are essential for you to be able to experience the full functionality of our site. Without these cookies, some parts of our site just don't work as they should.
- **Functionality**  
These cookies allow our site to remember your preference such as your search settings and choices (e.g. choice of language or mobile device preferences). This helps to improve operating speed of our site and customise your experience.
- **Performance(also called statistic cookies)**  
Performance cookies help us to understand how visitors interact with our site by collecting and reporting information anonymously. We use these cookies to compile visitor statistics such as how many people have visited our website, what operating system they use (e.g. Mac or Windows), how long they have spent on our site, and what page they are looking at.
- **Third Party Cookies**  
Addthis.com  
This cookie allows third-party social networks and other websites to share the pages and content of our site. For not being tracked by social media widgets, you may log out of all social networks you're logged in to before visiting our website.

### How long will Cookies stay on my device?

The length of time a cookie will stay on your computer or device will depend on whether it is a "persistent" or "session" cookie. Session cookies will only stay on your device until you stop browsing or log out of the site. Persistent cookies stay on your computer or device until they expire or are deleted.

## How to change cookie preferences or disable Cookies?

You can change your cookies settings at any time to control cookies placement through limiting or forbidding the website under which we provide the services to place cookies on your device and to disable unwanted cookies already stored on your device, by changing your browser's privacy preferences. Please note, however, that if you choose to disable, reject or block our cookies, some parts of our websites will not function fully, or in some cases, our website will not be accessible at all.

## Changes to Cookie Term

We may update our Cookie Term from time to time and please check our Cookie Term to ensure you are aware of the most updated version. (This Term was last updated on July 17, 2019.)

If you have any queries on data protection, please contact us. (mail to: [ase\\_webmaster@aseglobal.com](mailto:ase_webmaster@aseglobal.com))
